Denholm Seed Company

GENERAL CONDITIONS OF DELIVERY

For every order that we shall accept, we agree to plant sufficient land to produce the desired quantity of seed under normal conditions. Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only. Crop failure or any other cause beyond our control releases us entirely from delivery.

We urge our customers to use AIR MAIL when sending rush orders, and if so desired the seeds can be sent to you by AIR PARCEL POST which rate is very reasonable.

THE DENHOLM SEED COMPANY warrants to the extent of the purchase price that seeds we sell are as described by us on the container within recognized tolerances. Our liability, whether contractual or otherwise, is limited in amount to the purchase price of the seeds under all circumstances and regardless of the nature, cause or extent of the loss. Seeds not accepted under these terms and conditions must be returned at once in original containers and the purchase price will be refunded.

NOTE OUR TERMS

Prices in this list are now in effect on both spot and 1960 crop orders, and now cancels all previous prices.

All seeds are quoted F. O. B. our Warehouse, Los Angeles, California. 60 days acceptance net, less 1% cash, thirty days to firms of established credit. New crop seed shipped as soon as possible after harvest of crop 1960.

New customers must furnish satisfactory credit references if shipment is desired on an open account basis.

MINIMUM CHARGE PER ITEM . . . 50 CENTS

All invoices payable in U. S. Dollars, in or by New York or Los Angeles Exchange. All overdue accounts subject to sight draft without further notice, and ½ % interest charge per month. Bags and containers will be charged at cost and are not returnable.

All orders of 4 ounces or over will be charged at the pound rate, all orders under 4 ounces will be charged at the ounce rate.

Shipping instructions should accompany each order, stating clearly whether seeds are to be sent Ocean Freight, Rail Freight, Truck Freight, Express, Mail or by Air, giving preferred routes. In all cases where the route is left to our judgment, we will select the best we know, but entirely at the risk of the buyer. Should fulfillment of any order or contract be prevented or delayed by the act of God, war, blockade, revolution, prohibition of exports or imports, riots, strikes, lockouts, fire loss and/or detention at sea or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

We reserve the right to change prices in this list at any time.

THE DENHOLM SEED CO.

The measurements given on plant descriptions and the number of seeds per oz. are approximate and may vary with the season.

AGERATUM

VERBENA

Views of some of our seed ranches situated in the beautiful Lompoc valley where the rich, deep soil and ideal climatic conditions — combined with our research, quality control and experienced seed crop production — make it possible to supply the seed trade with the finest flower seeds in the world.

ASTER

PINK LADY

(NEW) (DENHOLM)

HERE IS THE "MISSING" PINK!

Florists everywhere have been clamoring for just such a shade and we are proud to announce the introduction, after many years of painstaking breeding work and testing.

The demand has already been created by your customers, so order NOW and make a handsome profit by offering this grand new Aster.

PINK LADY is a rich glowing salmon pink, quite distinct to any color in Asters on the market today. The broad, long incurved petals make a solid double flower, with centers completely covered. The flowers measure 3" to 4" across, and are freely produced on clean husky stems which branch generously from 3 ft. tall vigorous plants.

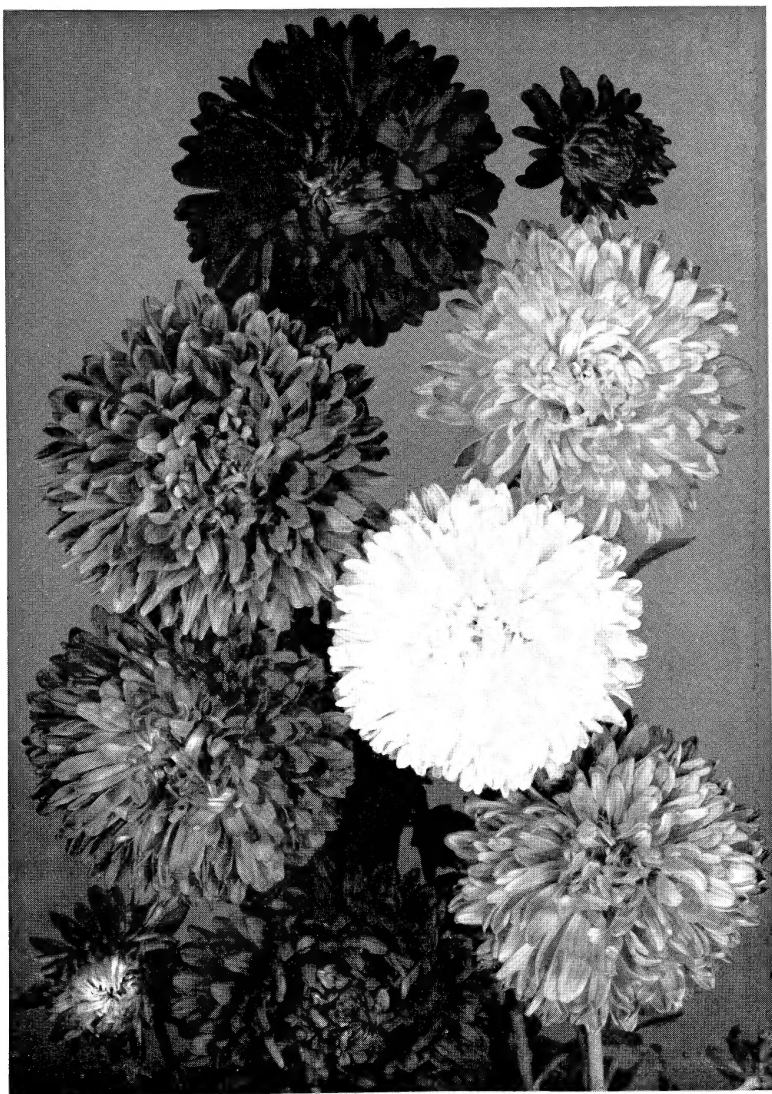

Per oz. \$5.00

Per lb. \$50.00

ASTER

Early Charm Mixed

(NEW) (DENHOLM)

ASTER

EARLY CHARM MIXED

(NEW) (DENHOLM)

Every known Aster color is in this charming mixture, from purest white through all shades of pink, through to crimson, scarlet and all shades of blue and purple. EARLY CHARM MIXED is extremely early to bloom, earlier even than the Queen of the Market type. The plants stand 18 ins. tall, with many laterals producing long clean stems which support a profusion of 3 in. double flowers, each with broad overlapping petals reminding one of the American branching form. EARLY CHARM MIXED should prove a wonderful garden variety . . . so be prepared for the gardening public's demand for this fine novelty. With suitable imprinting Stecher-Traung's packet #4078 and Schmidt Lithograph Co.'s packet #2900 could be used to feature ASTER EARLY CHARM MIXED. See page 5.

Per oz. \$2.50

Per lb. \$25.00

STOCK

DWARF TEN WEEK

Here are five new varieties, developed and introduced by us to augment this popular group. All are distinct in color, uniform in season and plant habit, and give a high percentage of doubles.

APPLE BLOSSOM.

Delicate soft pink, with a hint of rose pink. More color than Flesh Pink.

CARMINE ROSE.

A bright attractive color. Lighter than our new Crimson.

CRIMSON.

A true, solid crimson, lighter than Blood Red and quite different.

DEEP PURPLE.

Rich purple, deeper than the standard variety, Dark Blue or Purple, and lighter than Pansy Violet.

DEEP SALMON PINK.

Rich deep salmon shade, most effective in the mass.

Bronze Medal
Winner
for 1960*

An entirely new "break" in Dwarf Marigolds — a sensational novelty.

PER OZ. \$5.00

PER LB. \$50.00

MARIGOLD SPUN GOLD

Bronze Medal A.A.S. 1960

Marigold SPUN GOLD is an early dwarf chrysanthemum flowered type averaging 12 inches tall, erect, bushy growth, with a multitude of large double flowers 3 inches across, with incurved petals, bright golden yellow in color. The foliage is medium green. There are approximately 8,000 seeds per ounce. Prominent features of this Bronze Medal winner are (1) extreme earliness (2) uniformity of height and habit (3) profuse blooming. Ideal for mass bedding, borders, plant flats, window boxes and pot work. Marigold SPUN GOLD will appeal to the home gardener and we predict a warm welcome for this striking novelty. Pleasing effects can be obtained when used in garden arrangements with other popular, colorful annuals, such as: Ageratum, Lobelia Petunia, Alyssum, etc.

4 color electros 5" x 7" and 3" x 4" and glossy black and white prints for catalog use, dealer sales aids in the form of wall posters and postcards in color are available. Attractively designed lithographed packets are made by Schmidt Lithograph Company, San Francisco and Stecher-Traung Company, Rochester, New York. You should write them direct for your packet needs. Suggested retail price 50c per packet.

Plant growers like the early blooming feature of MARIGOLD SPUN GOLD.

This picture shows a box of seedlings grown under glass late winter and ready to set out in early Spring. Does well in Jiffy-Pots, too.

MARIGOLD Dwarf French Double PETITE

The Petite Marigold received world-wide recognition and acceptance. Being extremely dwarf, uniform in habit, very early flowering and floriferous, it appeals to the nurseryman and to the home gardener. We predict the **PETITE MARIGOLD** - developed by us, and introduced under our registered trade-mark - will eventually supersede the old Dwarf French double group and wide awake seedsmen will trim their catalogues and packet displays accordingly. Excellent colored packets are available.

Remember, the only true **PETITE MARIGOLD** on the market is grown by us, so ask for "Originator's Stock" of:

WINNER FOR 1958

PETUNIA

MULTIFLORA F₂ HYBRIDS

Petunia Nana Compact Mixed COLORAMA

For many years YOU and your customers have been asking us to provide a mixture of Petunia Nana Compact with a uniform plant habit. Your dissatisfaction with the best of the blends of the regular Nana Compact type of Petunia has been the marked, uneven plant habit. **F₂ HYBRID NANA COMPACT COLORAMA** has completely eliminated this problem. We are using for planting stock only those F₁ varieties that have proven to be uniform in height and plant spread in the F₂ generation. Also, we have used only those Hybrid varieties that reproduce uniformly large blooms 2½ to 3 ins. across.

Color Lithograph bags available. You should feature this item.

Price . . . \$4.00 per oz.

\$40.00 per lb.

NON BRANCHING — COLUMN

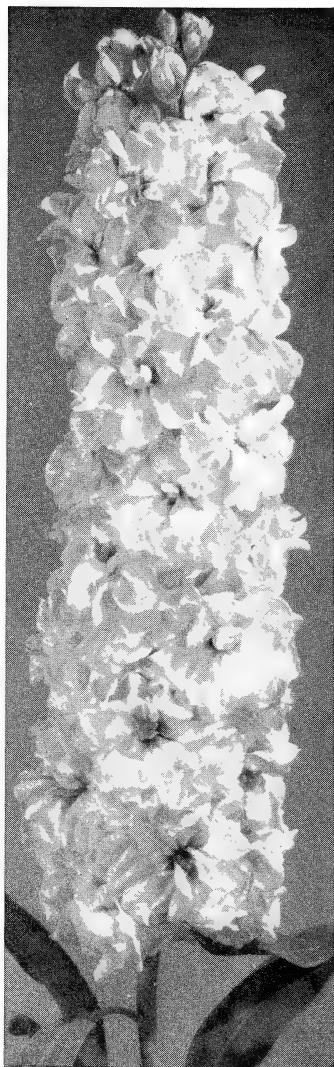

Miracle Strain

There are several excellent varieties of Column Stocks now being offered, but in line with our never-ending search for the ultimate in perfection, we have devoted considerable time and attention in our Stock breeding program to developing something different and superior.

At last we have achieved our purpose — here is the MIRACLE strain with the hallmark of fine breeding, developed with the florists and cut flower growers' needs in mind.

Graceful, long tightly packed stems, huge crisp florets, delightfully fragrant, new intense market-favorite colors, early season and a high percentage of doubles.

The MIRACLE STOCKS - obtained only from the originators - are novel and superior. Try them.

STOCK COLUMN (Non-Branching)
MIRACLE

STOCK

NON BRANCHING — COLUMN

MIRACLE Strain

MIRACLE FLESH

Here is what the cut flower grower has been waiting for — a tall growing, early, true flesh color Stock, with a large compact spike of closely packed florets with flat petals.

MIRACLE LAVENDER

At last we are able to offer you the most pleasing shade of Lavender. A good deep shade of great intensity. Will supersede all existing Lavenders. Tall straight stems with massive heads of large well-shaped florets. Under artificial light this color really comes to life.

MIRACLE MID-BLUE

Another new shade that is very popular with florists and with the West Coast cut-flower growers. Is a shade deeper and brighter than Ball Blue #3, and has larger flowers and longer spikes.

MIRACLE ROSE PINK

One of the most popular shades of Rose Pink, being close to Supreme #22. Stems are straight, not too heavy and ideal quality for shipping. Plants are very tall with well filled spikes of large flowers forming the most magnificent spike you have ever seen.

MIRACLE SILVERY LILAC

The newest addition to our now famous Miracle Stocks. Substantial spikes of closely set large double blossoms in a pleasing shade of lilac, with a soft silvery sheen. Is lighter than our Miracle Lavender and sure to find favor with discriminating cut-flower growers and florists.

MIRACLE WHITE

The most desirable and most striking Stock we have ever offered. It is earlier than Avalanche, and has been proven in many trials to be just what most cut flower growers have been looking for. Stems are long and straight, carrying the massive spike of pure white, gigantic florets in perfect formation. Easily the best white available today.

MIRACLE YELLOW

For the first time we now offer a clear deep yellow early flowering Stock with all the best cut flower qualities. It matches the quality of Miracle White for its long strong stems are amply able to carry the great flower spikes of the deepest yellow color on the market today. The singles are also deep yellow in color.

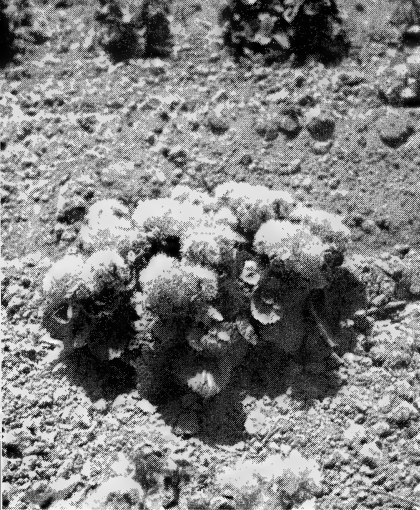

Seed of all above varieties in sealed bags.

Denholm Seed Company

ASTER EARLY CHARM MIXED

EARLY CHARM MIXED is extremely early flowering, in fact in our own trials at Lompoc, California it was 10 days earlier than Queen of the Market and noticeably earlier than other standard Asters claimed to be early flowering. For several weeks EARLY CHARM maintained its profusion of bloom and doubleness and created tremendous interest amongst our visitors.

The plants, standing 18 ins. high, have clean stems, comparatively free from branching, just right for cutting and indoor decoration. Large, fully double flowers, often 3 ins. across, are borne in great profusion. Every Aster color is represented in the showy mixture, blended to the right proportions.

This fine novelty will soon be the home gardener's favorite Aster for garden display and for indoor decoration; therefore, we strongly recommend you list it. New crop seed will be offered for the first time in the fall of 1960, produced on our own ranches in soil free from wilt, as is all our Aster breeding work and seed crop production. In the near future we expect to offer this new type Aster in separate colors.

CANDYTUFT GIANT HYACINTH
FLORIST STRAIN

CANDYTUFT

CANDYTUFT (Iberis) ANNUAL CORONARIA 10,000 Seeds per oz. **ICEBERG (New) (Florist Strain)**

This new florist strain of the Giant Hyacinth Flowered type supersedes by a wide margin any other strain of which we have knowledge.

The almost completely uniform plants will produce from 5 to 6 huge, well formed spikes per plant. The florets are about twice the size of the regular strains. Pure white.

\$.50 per oz.

\$5.00 per lb.

White Pinnacle (New) 2 ft. Ideal for market work.\$.80 \$ 8.00

Delphinium Pacific Giants

Grown from Originator's Stock

The Pacific Giant Strain offers the ultimate in fine Delphiniums. It has huge semi-double florets, well arranged on long flower spikes. The thin whippy stems grow from four to six feet tall. This strain is comparatively mildew resistant. It is by far the best strain of Delphinium available. (Perennial) 10,000 Seeds per oz.

	per oz.	per lb.
ASTOLAT SERIES	\$10.00	\$100.00
New shades in pale blush, lilac pink, deep raspberry rose.		
BLUE BIRD SERIES	8.00	80.00
Clear medium blue with white bee, an enchanting color combination. Florets are fully round and 2½ ins. in diameter.		
BLUE JAY SERIES	8.00	80.00
Medium blue with black bee, a striking color. Florets 2½ ins.		
CAMELIARD SERIES	8.00	80.00
Clear lavender with cream bee, a color combination that is rich and delicate. Extra large blooms.		
GALAHAD SERIES	8.00	80.00
Every one of the several separate series of the Pacific Giant Strain is truly outstanding, but Galahad is in every detail superior to any of the other series yet introduced. It has greater floret size, longer flower spike. The color is a clear soft white with white bee. Lots of substance. The average bloom size is over 3 ins.		
GUINEVERE SERIES	8.00	80.00
Light pinkish lavender with white bee.		
KING ARTHUR SERIES	8.00	80.00
Velvety, royal purple with a glistening cream bee, 3 in. florets.

Bronze Medal A.A.S. 1960

MARIGOLD SPUN GOLD

(Bordered by Lobelia, Crystal Palace)

It has taken us many years to perfect this wonderful novelty, years of painstaking, meticulous selection and stock seed increase work, following the original cross.

The ALL AMERICA SELECTIONS committee recognized the true value of MARI-GOLD SPUN GOLD by awarding it the Bronze Medal for 1960 retail introduction. This high honor, endorsed by glowing reports from unbiased trial grounds throughout the world, convinces us this is the outstanding novelty of the year. For a widespread use in all areas and under all conditions, SPUN GOLD will be in great demand. Extreme earliness, long season, abundance of bloom, uniformity in height, plant habit and flower form and the bright display of color all combine to make this new Mari-gold a popular garden subject, and a moneymaker for you. See pages 8 and 9 for description.

PETITE YELLOW80	8.00
PETITE MIXED80	8.00

This new class of Extra Dwarf Double French Marigold was awarded the All-America Bronze Medal winner for 1958 because it fills a much wanted need for an extra dwarf, uniformly even, very early and extremely floriferous Marigold for borders and mass effects.

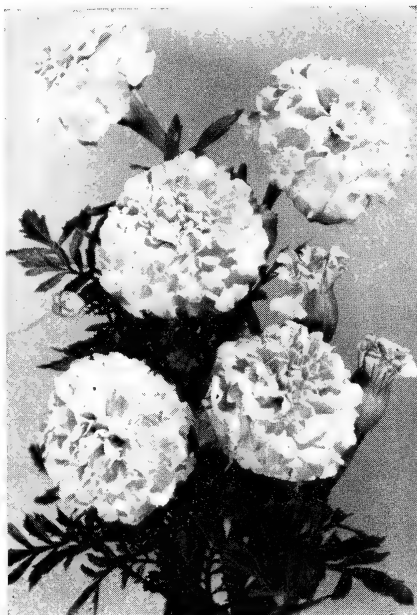

The Marigold Petite Strain is distinctly different from any other class of Marigold and has been especially bred to remain dwarf under conditions where most Marigolds tend to grow rangy and wild with late flowering tendencies. Many Marigolds introduced in recent years have been too late in flowering to be of much use in localities with short summers. The Petite strain will produce an abundance of very early blooms and have a very long flowering period.

Nurserymen will find this Petite strain particularly desirable as it gives a full double bloom in flats so that the customer can see the color before buying. The plant habit is very compact, growing six inches tall and ten inches wide with flowers borne in great profusion. We have many times counted over fifty blooms per plant in full flower at one time; in fact, the flowers cover the plant so that no foliage is visible.

PETUNIA

Giants of California

PETUNIA DWARF GIANTS OF CALIFORNIA 180,000 Seeds per oz.

MASTERPIECE (Denholm)

The production of the very finest quality Petunia seed, particularly the large flowered strains, has long been one of our specialties. Each year we devote some of our best land, and a great deal of effort and know-how to our Petunia workshop and production. **MASTERPIECE** is the elite of our Petunia program.

The best and brightest colors are selected from our renowned strains, and seed from these special plants is then grown in separate blocks. Every bloom is hand pollinated, and seed from each plant is saved separately. From these special lots of seed is made a beautiful blend according to a well tried formula, assuring you of getting the same wonderful quality on every order.

From our Petunia workshop we are continually adding new colors to the **MASTERPIECE** formula. In this blend you will find Rose, Copper and Pinks that are not available in any other strain.

Per 1/16 oz. \$6.00 Per 1/4 oz. \$18.00 Per 1 oz. \$60.00

STOCK

NON BRANCHING — COLUMN

MIRACLE Strain

*Tailored to the
Cut Flower Grower's
Specifications*

The MIRACLE strain of Column Stock, introduced for the first time by Denholm, is a truly miraculous improvement over the existing fine varieties.

Magnificent spikes, long and closely packed with mammoth firm-petalled blossoms, unusually high percentage of doubles and including several enchanting new shades.

The cut-flower growers, outdoors and under glass, have been anticipating this amazing development with mouth-watering enthusiasm.

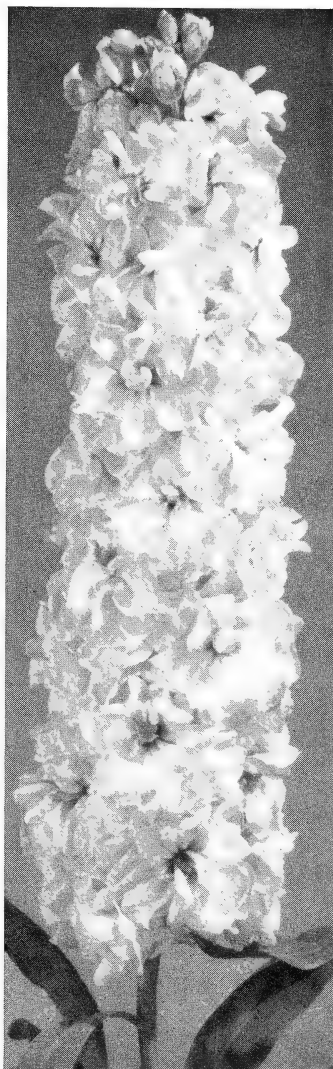

Those of you who feature Column Stocks should not fail to add the MIRACLE Stocks to your list. See pages 12 and 13 for descriptions.

Available colors are:

- Flesh
- Lavender
- Mid-Blue
- Rose Pink
- Silvery Lilac
- White
- Yellow

Each \$3.00 per oz.

\$30.00 per lb.

\$.50 per oz.

\$5.00 per lb.

"Flower Seeds of Proven Quality"

SWEET PEA CUTHBERTSON

FLORIBUNDA (New)

The **FLORIBUNDA SWEET PEAS** are a new and important development in the multi-bloom type of Sweet Pea. This medium early strain flowers at the same time as the popular Cuthbertson varieties but produces five or more large waved and fragrant flowers on long, strong stems, when properly grown.

The **FLORIBUNDA PEAS** also offer the superior qualities of heat resistance, and the tall vigorous vines that characterized the original Cuthbertson strain. Because each stem carries more flowers, color and substance, we feel sure that the **FLORIBUNDA** varieties will add to the value and usefulness of the already popular Sweet Pea.
